Dear Stan:

The Military-Economic Advisory Panel (MEAP) has just completed an intensive survey of several topics new to us. These topics include China, new areas in the overall Soviet economy, and Eastern Europe. We were also presented with an overview of NFAC programs and resources.

The enclosed report is an amalgamation of our general impressions on a number of topics, a discussion of four key areas meriting your attention, and our answers to a number of specific questions you have put to me at various times in the past.

After you've had a chance to read the report, I will be happy to answer questions, expand on any parts of the discussion, and in general explain any murky passages. In any event, the Panel would like the opportunity to discuss the report with you at our fall meeting.

Sincerely yours,

Chairman
Military-Economic Advisory Panel
